## TECHNOLOGIES

### Coffee in its widest varieties of flavours

**TRADITIONAL ESPRESSO BREWER (ES)**  
Espresso coffee made in compliance with Italian tradition.

**VARIABLE CHAMBER COFFEE BREWER (ESV)**  
Doses from 7 to 14 gr. Ensures optimum pressing and brewing conditions.

**FRESH BREWER (FB)**  
Allows high-quality filter coffee to be made from the finest coffee beans or ground coffee.

### Fresh milk makes hot and cold drinks tastier

**FRESH MILK FROTHING MODULE**  
Fresh milk frothing, for an incredible variety of hot and cold beverages.

### 2 cups of coffee with a single click

**DOUBLE OUTPUT TO DELIVER 2 CUPS OF COFFEE SIMULTANEOUSLY**

## **GENERAL TERMS AND CONDITIONS OF SALE**

General terms and sales conditions are registered to the headquarter of the Company and are available for consultation on our websites [www.bianchiindustry.com](http://www.bianchiindustry.com) or [www.bianchivending.com](http://www.bianchivending.com).

### **DELIVERY TIME**

The delivery time will be specified in the order confirmation.

In any case, delivery times are approximate, non-essential under art.1457 Italian Civil Code and in any case do not include the transportation period.

### **DELIVERY TERMS**

Ex works production factory (Zingonia di Verdellino).

### **PAYMENT TERMS**

To be agreed.

### **PACKAGING**

Standard packaging with cardboard box included in the price.

### **WARRANTY**

General terms of warranty can be viewed on our websites [www.bianchiindustry.com](http://www.bianchiindustry.com) and [www.bianchivending.com](http://www.bianchivending.com).

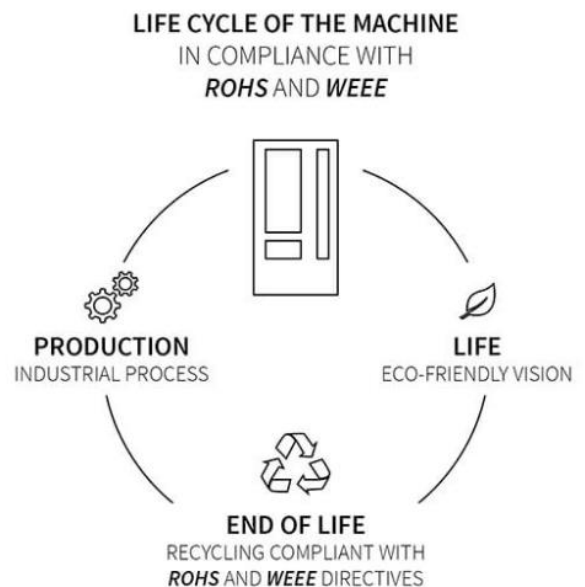

Prices do not include payment systems and VAT.

## SUSTAINABILITY

We have always been convinced that business and respect for the environment must go hand in hand, and for this reason the Bianchi Industry industrial model is entirely focused on eco-sustainability. In the first place we wish to protect the land in which we work, therefore we pay great attention to the life cycle of our machines: from production (which respects the limits allowed of harmful substances used) to recycling, which complies with RoHS and WEEE directives.

### A COMMITMENT FROM CONCRETE RESULTS

- Energy Saving with «Energy Saving» models.
- Energy Saving using LEDs to replace neon.
- Cup sensor to have a drink in mug, without plastic cup.
- Compliance with the permitted limits for hazardous substances used in the production of Vending Machines.
- Compatibility with paper cups and wooden stirrers.

UNI EN ISO 14001 2004  
ENVIRONMENTAL MANAGEMENT SYSTEM  
<https://www.bianchivending.com/eco-sustainability>

## QUALITY AND CERTIFICATIONS

Bianchi Industry proposes itself to be the innovative leader for product, process and service in the Vending field, in a continuous improvement and technological progress. This ambitious goal brings to a process of optimization and constant renewal by means of an integration between managing systems subject to improvement, considering as priorities both the quality, service and product reliability as well as: the customer satisfaction, the respect of the legal prescriptions and any other requisite established, the security in the working environment and the improvement of their own environmental performances.

By this the company intends to completely satisfy all the requirements relative to the compulsory standards applicable to the company certification: UNI EN ISO 14001:2004 and ISO9001:2008.
